

Construction Materials Testing (CMT) Field Technician

Who we are:

NTS Environmental Science and Engineering offers a broad spectrum of environmental services, including consulting, engineering, engineering support, and data management to a wide range of clients around the Iron Range in northern Minnesota. NTS is proud to provide an employee-driven culture that fosters professional development and growth. Integrity, safety, client-focus, and excellence underline all we do. CMT Field Tech's use an NTS vehicle and are provided with all the tools necessary to perform their job. We offer a competitive pay and benefits package, including medical, dental, and life insurance, a 401(k) and matching plan, paid professional development, paid holiday's, and paid time off.

Primary Accountabilities:

- Collect samples from various construction and mining sites.
- Perform detailed record keeping of site and sample information; create reports on the computer.
- Conduct compaction tests for soil density, including safe handling of the nuclear device.
- Conduct field concrete tests, including temperature, air content, slump, and cylinder creation.
- Maintain all equipment used in the field.
- Follow all NTS safety rules and regulations and maintain a professional demeanor as a steward of the company.
- Other duties within the reasonable scope of the position.
- Hours may fluctuate seasonally.

Qualifications:

- Must be willing to obtain MnDOT certifications, MSHA, and Nuclear Density certifications within 6 months of employment start date.
- Must be able to read and understand plans and specifications, and accurately follow field test protocols, procedures, policies, and instructions (MnDOT, AASHTO, ASTM, etc.).
- Ability to use basic computer software, including Word and Excel, to complete reports.
- Ability to work outdoors in a variety of conditions and lift 50 pounds regularly throughout the day.
- Valid driver's license with clean driving record.
- Preference: Civil Engineering Technician degree OR 1+ years of experience as a Construction Materials Testing (CMT) Field Technician
- Preference: MnDOT certifications: Aggregate Production, Grading and Base, Bituminous Street, and Concrete Field
