

Construction Materials Testing (CMT) Field Technician

Who we are:

NTS Environmental Science and Engineering offers a broad spectrum of environmental services, including consulting, engineering, engineering support, and data management to a wide range of clients around the Iron Range in northern Minnesota. NTS is proud to provide an employee-driven culture that fosters professional development and growth. Integrity, safety, client-focus, and excellence underline all we do. We offer a competitive pay and benefits package and opportunity for advancement.

Position Description:

NTS is seeking a Construction Materials Testing (CMT) Field Technician to join our team! Primary accountabilities include, but are not limited to:

- Collect samples from various construction and mining sites
- Perform detailed record keeping of site and sample information
- Conduct compaction tests for soil density, including safe handling of the nuclear device
- Conduct field concrete tests, including temperature, air content, slump, and cylinder creation
- Create appropriate reports on the computer
- Maintain all equipment used in the field
- Follow all NTS safety rules and regulations and maintain a professional demeanor as a steward of the company
- Hours may fluctuate seasonally

Qualifications:

- Civil Engineering Technician degree OR 1+ years of experience as a Construction Materials Testing (CMT) Field Technician
- MnDOT certifications: Aggregate Production, Grading and Base, Bituminous Street, and Concrete Field
- Must be willing to obtain MSHA and Nuclear Density certifications within 1 year of employment
- Must be able to read and understand plans and specifications, and accurately follow field test protocols, procedures, policies, and instructions (MNDOT, AASHTO, ASTM, etc.)
- Ability to use basic computer software, including Word and Excel, to complete reports
- Ability to work outdoors in a variety of conditions and lift 50 pounds regularly throughout the day
- Valid driver's license with clean driving record
