

## Environmental Data Manager / Data Scientist

### Who we are:

NTS Environmental Science and Engineering offers a broad spectrum of environmental services, including consulting, engineering, engineering support, and data management to a wide range of clients around the Iron Range in northern Minnesota. NTS is proud to provide an employee-driven culture that fosters professional development and growth. Integrity, safety, client-focus, and excellence underline all we do. We offer a competitive pay and benefits package, flexibility, and opportunity for advancement.

### Position Description:

NTS is seeking an Environmental Data Manager / Data Scientist. Primary accountabilities include, but are not limited to:

- Review field and analytical reports for completeness and accuracy and document identified quality issues;
- Ensure all samples and measurements comply with local, state, and federal requirements;
- Integrate data from laboratory, field, and historical sources with NTS database;
- Perform regular quality checks on data;
- Complete and submit reports to the MPCA;
- Produce graphs, reports, and other deliverables for clients;
- Provide customized querying and reporting support through the Client Portal;
- Assist with maintenance of the NTS quality assurance program through continued development of and adherence to new and existing policies and procedures;
- Build and maintain strong, collaborative relationships with clients and NTS staff;
- Support the NTS safety program through safe work practices, policy adherence and hazard reporting, and wearing appropriate PPE; and
- Other duties as assigned or necessary.

### Qualifications:

- Bachelor's degree in environmental science, geology, chemistry, or other relevant field
- QA/QC and lab experience
- Knowledge of federal and state regulatory guidelines
- Must be extremely detail-oriented and possess a strong desire for continued learning and professional growth
- GIS, Database programming, SQL, or other programming experience helpful
