

Environmental Field Scientist

Who we are:

NTS Environmental Science and Engineering offers a broad spectrum of environmental services, including consulting, engineering, engineering support, and data management to a wide range of clients around the Iron Range in northern Minnesota. NTS is proud to provide an employee-driven culture that fosters professional development and growth. Integrity, safety, client-focus, and excellence underline all we do. We offer a competitive pay and benefits package, flexibility, and opportunity for advancement.

Position Description:

NTS is seeking Environmental Field Scientists. This entry, mid or senior level position is tailored to individuals passionate about environmental science or engineering and focuses on sample and field data collection, accurate and comprehensive field documentation, expertise with scientific equipment operation, and contributes to the success of projects across diverse domains. Primary accountabilities include, but are not limited to:

- Conduct sample collection and field measurement activities across diverse matrices, encompassing surface water, groundwater, soil, air, and biota;
- Apply scientific principles while utilizing tools and procedures for field work and data collection;
- Support site investigation and remediation efforts with a focus on Phase I and II environmental assessments;
- Maintain detailed and accurate field log books with diligent recording of all measurements and observations;
- Engage in technical analysis, solution development, and report writing for intricate environmental compliance tasks;
- Build and maintain strong, collaborative relationships with clients and NTS staff; and
- Support the NTS safety program through safe work practices, policy adherence and hazard reporting, and wearing appropriate PPE.

Qualifications:

- Bachelor's degree in a relevant science or engineering discipline.
- Basic knowledge of scientific principles as they relate to environmental data collection.
- Willingness and ability to work outdoors in all types of conditions under a varied field operations schedule, including some longer days and occasional on-call shifts.
- Valid driver's license and ability to travel frequently on regional day trips, with up to 10% overnight.
- Ability to carry 50+ lbs for a sustained length of time.

Northeast Technical Services, Inc. (NTS) is an Equal Opportunity, Affirmative Action Employer. All qualified applicants will be considered for employment without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, age, disability, or status as a protected veteran.

- Demonstrated strong written and verbal communication skills and the ability to work collaboratively within a multidisciplinary team.
- Excellent attention to detail, strong analytical judgement, and a strong desire for continuous learning and professional growth.
- Ability to operate basic hand/power tools, off-road vehicles, and watercraft.
- Ability to learn new software and technology required for field data collection and technical proficiency with Microsoft Word, Excel, and Outlook.

Preferred Qualifications:

- Knowledge of federal and state environmental regulations.
- Master's degree or 1-2 years of experience in environmental field science.
- State or federal certifications related to water, wastewater, asbestos, lead, mold, stormwater, solid waste, hazardous waste, wetlands, drone piloting, construction materials testing, surveying, ecology, or geology.
