

Field Scientist (Mid-Level)

Who we are:

NTS Environmental Science and Engineering offers a broad spectrum of environmental services, including consulting, engineering, engineering support, and data management to a wide range of clients around the Iron Range in northern Minnesota. NTS is proud to provide an employee-driven culture that fosters professional development and growth. Integrity, safety, client-focus, and excellence underline all we do. We offer a competitive pay and benefits package and opportunity for advancement.

Position Description:

NTS is seeking a mid-level Field Scientist. Primary accountabilities include, but are not limited to:

- Assist and support Project Managers with environmental project work including site investigation, remediation, data analysis, and sample collection for a wide range of clients;
- Perform field work, including surface water and groundwater sample collection, soil sampling, and biological sampling;
- Work independently to prepare for field events, including identifying travel routes and arranging equipment, and verifying the integrity of sample containers;
- Maintain accurate field log books and submit field reports as required to satisfy all recordkeeping requirements;
- Build and maintain strong, collaborative relationships with clients and NTS staff; and
- Support the NTS safety program through safe work practices, policy adherence and hazard reporting, and wearing appropriate PPE.

Qualifications:

- Bachelor's degree in water resources, environmental science, environmental engineering, or similar discipline.
- Strong desire for continued learning and professional growth.
- Willingness to work outdoors in all types of conditions.
- Ability to carry 50+ lbs. for sustained lengths of time.
- Valid driver's license.
- Knowledge of Federal and State regulatory guidelines.
